Research Update | 2 September – November 2017

The first 1000 days: An evidence paper

The Centre for Community Child Health at the Murdoch Children’s Research Institute recently released a new report - The First Thousand Days: An Evidence Paper.

The first thousand days: An evidence paper takes a comprehensive look at the latest evidence regarding the significance of the first 1000 days, and the biological, global, environmental and social factors that influence children’s outcomes during this critical period of development (and beyond). Read the paper.
